

Changelog MONITOR Web shop version 2.37.1

- 1385** A new setting to determine if a configured part summary on one page shall be displayed just as in the G4 web shop is added. The new setting is called *Show summary page for configuration* .
- 1386** Webshop users can now send the configured parts via e-mail to the web shop admin. This is determined by the new setting *Allow users to send the configuration via e-mail to the administrator* .
- 1436** Login/Create account in the Shopping cart would not work if visitors permission group was lacking a payment solution.
- 1455** An English translation for the cookie explanation is added.
